

*“While there may not be a cure,  
we have a solution.”*

## **DocOncology is excited to announce their special offer to VAHOM/VAHO Members**

DocOncology is a fully integrated practice management, electronic medical records (EMR) and billing solution. Our application is a user-friendly web-based solution that streamlines the entire office from receptionist to biller. DocOncology allows physicians to have access anytime, anywhere to patient records. Office managers can better manage the practice from one point of access with endless available data to analyze collections, number of new patients and multiple places of service. The front desk can manage appointments and patient information with ease and billing is simplified with integration and easy accessibility of information.
